Krit Poka

Software engineer who designs — Flutter, Next.js and the UX in between

Bangkok, Thailand · kritpoka@gmail.com · github.com/kritpoka · linkedin.com/in/krit-poka-386b47291

SUMMARY

Final-year Computer Science student at Kasetsart University. Just completed a 5.5-month software engineering internship at ttb (TMBThanachart Bank), building Flutter apps with Clean Architecture, Firebase and CI. I design in Figma, build mobile and web apps end to end, and have won awards for student-focused digital services.

EXPERIENCE

Software Engineer Tech Intern — ttb (TMBThanachart Bank) May – Oct 2026

ttb spark Tech & Data Internship · Tablet Platform Digital Solution team · Bangkok

- Built three developer tools into the team's internal Flutter app (CSV↔JSON parser with chunked processing up to 30 MB, regex tester, QR generator) and a shared Firebase Analytics component.
- Automated releases with Fastlane + Melos: four lanes for analysis, unit tests, version bumps and Firebase App Distribution.
- Owned an Activity Log app for the Business Analysis team end to end, replacing versioned Excel files with a Firestore source of truth, version history, single-device login and cache-first data.
- Joined the enterprise platform team during its move to micro-frontends; shipped real-time unread notifications (Cubit + WebSocket) and multi-tab idle timeout through merge requests, code review and Jenkins.

UX/UI Intern — Kasetsart University Apr – Jun 2024

- Redesigned the KU Meeting website for clearer navigation and a consistent interface.

PROJECTS

KU Campus Map — React, TypeScript, three.js, OpenStreetMap 2026

- 3D, bilingual map of the Bangkhen campus with 38 places, Thai/English search and shuttle routes; custom touch gestures and code-split 3D cut LCP from 5.1 s to 3.1 s. ku-map-beta.vercel.app

Smart Dorm — Figma, Next.js, Spring Boot 2025

- Team of 4. Designed the UI, workflow and part of the database, and built front-end billing for staff and residents, replacing manual Excel and email billing; usability-tested with real dorm staff.

Kasetfair POS — Next.js, TypeScript, Supabase, Zustand 2026

- Phone-first POS built in two weeks from a real stall's requirements: orders, stock, PromptPay QR payments and a sales dashboard, with Supabase Auth and row-level security. ku-media-pos.vercel.app

KU Media Website — Next.js, Node.js, MySQL, Docker 2025

- Club site with separate user and admin roles (JWT), activity publishing, an admin stats dashboard and a Dockerised MySQL dev database.

Qwiksell — Flutter, Firebase, Figma 2025

- Team mobile POS app; designed the UI and built the order, payment, history and receipt flows.

KU Request Submission System — Java, JavaFX 2024

- Team of 4. Desktop petition system with five roles, role-based access and approval history.

SKILLS

Mobile: Flutter, Dart, BLoC/Cubit, Clean Architecture, Firebase
Web: TypeScript, JavaScript, React, Next.js, Node.js, Express, Tailwind, Zustand
Back end & data: Supabase, MySQL, Firestore, REST APIs, JWT, Spring Boot
Languages: Python, Java, C, C++, SQL
Design: Figma, UX research, usability testing, prototyping
Tools: Git, GitLab, Docker, Jenkins, Fastlane, Melos, Postman, Jira

AWARDS

- MHESI First Place Award — Student Service category
- SUN Thailand Recognition Award — excellence in student-focused digital solutions
- KUSA Student Activity Award, Kasetsart University — UX/UI design, 2024

LEADERSHIP

Co-founder, Vice President & Treasurer — KU Media Production Club 2025

- Set up club workflows, planned major activities and managed the annual budget.

EDUCATION

B.Sc. Computer Science — Kasetsart University, Bangkok 2023 – present
